Description

120 Series and 121 Series Thermistors are shock resistant, rugged, glass-encapsulated units that are often suited for immersion in fluid and convenient for mounting in air sensor assemblies. They are available in two configurations: standard and mini.

Features

Features

- Hermetically sealed
- High reliability
- Maximum temperature to 260 °C [500 °F]
- Weldable, solderable dumet leads

Potential Applications

Potential Applications

- Military
- Aerospace
- Oceanography
