

Features & Benefits

- Isolated output
- Up to 50W/in³
- cURus, cTÜVus
- Up to 90% efficiency
- Size: 4.6" x 2.4" x 0.5" (116,8 x 61,0 x 12,7mm)
- Remote sense and current limit
- OVP, thermal shutdown
- Logic disable
- Wide range output adjust
- Compatible power booster modules
- ZCS power architecture
- Low noise FM control
- CE Marked
- RoHS compliant (VE-200)

Product Highlights

The VI-200 family, with over 14 million units shipped, is Vicor's broad series of "zero-current-switching" component-level DC-DC converters.

Operating at frequencies up to 2MHz, VI-200 family converters offer exceptional power density, efficiency, noise performance, reliability and ease of use. Booster modules (VI-Bxx) provide a simple, cost-effective, off-the-shelf solution for higher power output requirements. One or more boosters may be used to create synchronous arrays capable of supplying several kilowatts of output power.

The flexibility of Vicor's power components is also available in half-size, half-power VI-J00 MiniMods.

Basic Module Operation

Figure 1 — Basic module operation requires fusing, grounding, bypassing capacitors.* See [Design Guide & Applications Manual](#).

Output Connections and Considerations

The permissible load current^[e] must never be exceeded during normal, abnormal or test conditions. Converters subject to dynamic loading exceeding 25% of rated current must be reviewed by Vicor Applications Engineering to ensure that the converter will operate properly.

Under dynamic load, light load, or no load conditions, the converter may emit audible noise. Converters that utilize remote sense may require compensation circuitry to offset the phase lag caused by the external output leads and load impedance. Remote Sense leads must be protected for conditions such as lead reversal, noise pickup, open circuit, or excessive output lead resistance between the sense point and the converters output terminals. For applications that may draw more than the rated current, a fast acting electronic circuit breaker must be utilized to protect the converter. Under no circumstance should the rated current be exceeded. Utilizing or testing of current limit or short circuit current will damage the converter. Ensure that the total output capacitance connected to the converter does not exceed the limits on Page 4.

^[e] Permissible load current: $\frac{\text{Nominal Power Rating}}{\text{Nominal } V_{OUT}}$

Storage

Vicor products, when not installed in customer units, should be stored in ESD safe packaging in accordance with ANSI/ESD S20.20, "Protection of Electrical and Electronic Parts, Assemblies and Equipment" and should be maintained in a temperature controlled factory/warehouse environment not exposed to outside elements controlled between the temperature ranges of 15°C and 38°C. Humidity shall not be condensing, no minimum humidity when stored in an ESD compliant package.

Packaging Options

SlimMod

Flangeless package

4.60"L x 1.80"W x 0.50"H
(116,8 x 45,7 x 12,7mm)

To order the SlimMod configuration add the suffix "-S" to the standard module part number.

Qty (2) grounding clips are included with each SlimMod P/N 32187

FinMod

Flangeless package with integral heat sink

Longitudinal, 0.25"(6.35mm) fins — add suffix "-F1"
Longitudinal, 0.50"(12.7mm) fins — add suffix "-F2"

Transverse, 0.25"(6.35mm) fins — add suffix "-F3"
Transverse, 0.50"(12.7mm) fins — add suffix "-F4"

Available with longitudinal or transverse fins of 0.25"(6.35 mm) or 0.50"(12.7mm) height. Add the appropriate suffix to the module part number.

Qty (4) grounding clips are included with each FinMod F1, F2 P/N 32185
F3, F4 P/N 32186

MegaMod

Chassis mount alternatives, one, two, or three outputs: up to 600W

1 up - 4.9" x 2.5" x 0.62" (124,4 x 63,5 x 15,7mm)
2 up - 4.9" x 4.9" x 0.62" (124,4 x 124,4 x 15,7mm)
3 up - 4.9" x 7.3" x 0.62" (124,4 x 185,4 x 15,7mm)

BusMod

4.60"L x 2.40"W x 1.08"H
(116,8 x 61,0 x 27,4mm)

To order the BusMod fully assembled, add suffix "-B1" to the standard module part number.

To order the BusMod separately:
Full-sized BusMod — P/N 06322

See BusMod Mechanical Drawings for more details.
