

How to Use our Homepage Features ?

- a. User ID:** when users click on their id win-source takes them to the “Customer info” page under the “My Account” section where users can add, edit, and delete their profile details.
- b. Log out:** this option is used to leave their account until the next login.
- c. Shopping Cart:** the amount for the items to buy.
- d. Currency :**This drop-down option is used to select the currency in which the users will pay.
- e. Search Bar :** The “Search” function on the top right of the page is used to search for a specific electronic part by typing its name in the search box.
- f.** These tabs in the **main menu** are used to see the list of products, manufacturers, account settings, support from the WINSOURCE team, and learning about the WINSOURCE services (all these tabs are discussed in detail below).

g. This search function in the middle of the page is used to search for a particular electronic part by typing keywords or component serial number e.g, part number ADV7513BSWZ.

h. These three modules are the main business of WINSOURCE, including the provision of a wide range of common-used components and the search for obsolete products, as well as providing professional alternative solutions for OEM customers.

i. Service & Tools

WINSOURCE provides different services and tools for their users to make buying and selling easy. This section on the home page is used to get WINSOURCE’s services e.g, sending an inquiry, alternative solutions, storing excess inventory with WINSOURCE, packing, product testing, and logistics. By clicking on each section users will get detailed information about what is it and how to use these services & tools.

SERVICE & TOOLS

 <p>BOM Tool Need a quick quote? Online submit the BOM List.</p>	 <p>OEM Technical Support Quickly get technical support for your projects.</p>	 <p>Alternative Solution (Cross Reference) Avoid redesigns and supply chain disruptions.</p>	 <p>Excess Inventory Management Send us your excess stocklist to free much-needed space.</p>
